

# Class 1 & Reception Curriculum Overview Summer Term 2022

## In English and Literacy we are:

Using and developing our phonic knowledge to read and write words, captions and sentences.

Practising correct letter formation and handwriting using both upper and lower case letters.

Understanding that writing can be used for different purposes by reading and writing poetry, letters, postcards and instructions.

Enjoying a wide range of fiction and non-fiction books and extending our vocabulary based on these.

## In Maths:

**Reception** will be extending their knowledge of numbers to learn about To 20 and beyond, using a range of strategies to add, subtract and double numbers. They will also look at time, shape and patterns.

**Key stage 1** will be focusing on measurement, including length, height, time, mass, capacity and temperature. They will also work on geometry, focusing on position and direction.

### RE:

This term our themes are Special Words and Buddhism.

### Computing:

We will be developing our typing and digital photography skills

### PE: Wed & Fri

This term we are exploring orienteering, team games, athletics and preparing for Sports Day.

### **Our Topics this term are: Joyful Jubilee and Terrific Transport**

We will learn about the Queen, her role and family and how previous Jubilees have been celebrated locally. We will also be planning and taking part in our school and village celebrations of the Queen's Platinum Jubilee.

After ½ term we will be looking at how transport has changed over the last century, focusing on the developing role and design of the motor car. We will be designing our own vehicles and exploring how a production line works. We will develop our observational sketching skills drawing vehicles.

#### **Science:**

We will be developing our gardening skills by tending the school raised beds to plant and grow a variety of vegetables. We will learn about plant life cycles and what plants need to thrive. We will learn to classify different types of plants and trees. We will also learn about the seasons, day length and weather.

#### **Music**

Bring the noise: we will be listening to how music can be used to represent weather and seasons and then creating our own weather compositions using percussion instruments.

#### **PSHE**

Healthy me - how we can keep our bodies and minds healthy.

#### **Homework:**

Please continue to read with your child 5 times a week. Key Stage 1 will continue to receive Mathematics homework each week and Reception will have a piece of homework linked to our phonics learning or Maths. This will be set weekly.

#### **Information:**

Children should come to school in their **PE kits on Wednesdays and Fridays.**

**Thursday 26<sup>th</sup> May:** Treasure Island Wellbeing Day (details to follow)

**Friday 27<sup>th</sup> May:** Platinum Jubilee Celebrations (details to follow)

If you have any concerns or questions this term, please speak to Mrs Watts or Mrs Lancaster.
